Beston Benten by Louisville-Pitisburg Outplays the Washingtons and Gains on the New Yorks-The Latter's Contest with Clacianati Prevented by Wet Grounds. Wet grounds prevented the New Yorks from playing at Cincinnati resterday, so a double-header will be played to-day, weather, of source, permitting. The Pittsburgs won handily from the Washingtons and gained several points on the locals. Louisville beat the Bos-tons in a pitchers' battle that was ended after seven innings by rain, which increases the lead of the Reds by 34 points. The Brooklyns played two games at St. Louis and broke even. Eb-bets's men will have to hustle to keep ahead of the Louisvilles, who are at present only 28 points behind them and are playing fast ball.

ST. LOUIS, 4; BROOKLYN, \$3-PIRST GAME. St. Louis, Aug. 3.-Heavy batting was a fea ture of both games between Brooklyn and St. Louis to-day. The first went to the Browns in the last half of the ninth inning because Yeager got nervous and after filling the bases hit Olements with the ball. Sullivan hit safe to right and Crooks scored. Taylor was easy in the second game, but so was Dunn, and but for the shamefully bad fielding of the Browns the visitors would have lost. Stenzel caused another row by crossing the plate as the ball was being pitched. McDonald called it a ball, A talk that lasted sixteen minutes resulted in Griffin losing his temper and he made faces at

PRESIDENT NOUNG'S STATEMENT. Says His Time Mas Not Come to Settle the

WASHINGTON, Aug. 3 .- President Young of the National Baseball League to-day issued the following statement regarding the dispute between the New York and Baltimore clubs over the game forfelted to the latter at New York on

The recent unpleasant incident in New York, resulting in the forfeiture of the game to the Baltimore Club in the fourth inning, on July 25, is the subject of much misunderstand-ing on the outside of official baseball circles and even among some of our officials. Its status is not understood, and the League and myself have been subjected to criticism for apparent apathy. My silence might indicate that am drifting and awaiting developments, but, on the contrary. I have the matter well in hand, with a well-defined policy which I am convinced is in accordance with the law and the circumstances of the case.

On July 25 Umpire Lynch reported to me the forfeiture of the game to Baltimore on account of the refusal of the New York Club to continue play and regited the circumstances about as published in the papers, asserting that he did not hear anything said by Player Holmes insulting to the audience to justify his removal from the game. On July 26 the New York Club protested to the Board of Directors against the decision of the umpire and the result of the game, claiming that the facts and the law did not justify his action and form no basis for the forfeiture of the game.

"Here the question of fact is raised as to whether the New York Club did withdraw its cam from the game as comprehended in the League constitution and the recent legislation of the National League. The appeal was immediately transmitted to the Baltimore Club for answer, and up to date no reply has been received. This case, of course, is entirely separate and distinct from any claim for the penalty imposed for the withdrawal of a team from a game before its completion, but it at the same time forms the basis of any further action that might be taken under the provisions of asetion 54 of the constitution. After a delay of several days, during which the payment on check for the Baltimore's share of the gato receipts was stopped on July 29, the Baltimore Club appealed to the Board of Directors for the enforcement of the penalty of \$1.000 for the withdrawal of the New York team before the completion of the game. A copy of this appeal was immediately mailed to Mr. Freedman for answer, and likewise no reply has been received. In the consideration of these contentions I have two conditions to bear in mind, one of fact and one of law.

"First—There is a dispute as to the facts of the case as comprehended in section 54 of the League constitution pending before the Board of Directors. Until the facts are established by the competent tribunal it would be presumption for the Secretary of the League constitution before referred to was obviously adopted for the protection of home clubs against hasty and disinterested visiting club managers withdrawing their teams from the field and disappointing the audience, which action always injures the home club far greater than the retention of the gate receipts or a small pecuniary fine can repay. It was never anticipated that any club would disappoint its patrons who had journeyed to its grounds and paid admission to witness a game.

"The Secretary of the League, under these circumstances, therefore awated the appeal of circumstances. The secretary of the secretary of the center of the circumstances wherefore awated the appeal of circumstances. The secretary of the League, under these League constitution and the recent legislation of the National League. The appeal was imme-

journeyed to its grounds and paid admission to witness a game.

"The Secretary of the League, under these circumstances, therefore awaited the appeal of the Baltimore Club before taking any action. They would not, in all probability, have presented their claim if they had received their share of the gate receipts, but the New York Club, having stopped payment on their check, forced them to this recourse. The matter now is in the hands of the interested clubs, and my hands are tied until they move. Then I will take prompt and vigorous action, and if it appears necessary will call a meeting of the Board of Directors to adjudicate the entire matter.

A BRILLIANT BASEBALL RECORD. Betts Academy Loses Only Two Games in

Only two defeats in nineteen games and a score of 171 runs against 115 is the showing made by the Betts Academy baseball team for the season just closed. It was the most sucsessful campaign in the history of the institution, and the record is one of which the boys have good reason to feel proud. Last year the team won seventeen games and lost four. This, it was thought, would stand unapproached for a long time to come. For an institution with less than fifty students these records are rather remarkable when one considers that Betts's boys crossed bats with the strongest

scholastic teams in this vicinity.

Throughout the late season the team kept up its good batting. In the game with Yale, 78, after being shut out for six innings, the Betts players batted out six runs in the seventh. In the game with Fanwood A. A. of the Deaf and Dumb Institute and Adelphi Academy nine and eleven runs respectively were scored in one inning by good hitting. The batting order and position of the players were as follows: Wolf, catcher; Davies, third base; Conkling, first base; Brainard, second base; Londoner, right field; Newman, pitcher; Hyde, left field; Flake, centre

field; Olcott, shortstop; substitutes, Little and Mc Turch. Conkling, Brainard and Wolf were the best Conkling, Brainard and Wolf were the best batters, while nearly every one of the other players of the team could be counted upon to make a hit when in a tight place. In fleiding Hyde, Londoner, Brainard and Conkling finished with the best records. Cleott played brilliantly at times. Newman, who occupied the points for the team, by his coolness and wonderful control of his wide and speedy curves won every game in which he pfiched. The team sustained its two defeats when a sub-pitcher was in the box. Many of the best players will go to college, but the good record of the second nine the past season gives promise of another strong first team next year. The record for the season follows:

Betts, 10; Merrill Business College, 8. Betts, 6;

MARSHALL A SURPRISE.

HE LOSES A RACH ON THE PLAT AND WINS OVER THE HURDLES.

Maker Improves His Percentage by Win ning Four Races at Brighton Beach-He Pilots Pink Chambray, St. Clair, Miss Lynab, and Cormorant to Victory. The uninviting aspect of the weather yesterday failed to scare the patrons of the Brighton Beach meeting, and a crowd of more than average proportions turned out. The little rain that fell only served to lay the dust on the track, and scratches were so few that the card promised some interesting sport. Jockey Maher was the hero of the hour. He took advantage of Sloan's return to Saratoga, and at one time looked like going down the line without a break. He rode three successive winners, and, after slipping up in the fourth race, raked in the fifth. Out of this bunch he rode only two favorites, so that those who followed him must have profited largely. The two referred

to, by the way, were the only first choices to to, by the way, were the only first choices to pull through.

The old campaigner, Marshall, earned unique honors. He started favorite in the first race, but wound up a moderate third to Fink Chambray and Vigenta. He was also engaged in the hurdle race at the end of the card, but every one took it for granted that he would be scratched. Instead of declining the issue, however, he turned out again as Irlsky as a two-year-old, and won his race in fine style from the favorite Rheinstrom. The latter led by a wide margin to the turn for home, where Marshall made his bid and beat the favorite by two lengths. Brown Red finished at Rheinstrom's throatlatch.

lengths. Brown Red finished at Rheinstrom's throatlatch.

Ben Viking ruled first choice in the first five-furlong dash for two-year-olds, but he failed to finish in the money. Lady Meddlesome, at 10 to 1. made the running clear of her field to the turn for home, where Maher brought St. Clair up and won by half a length. Passaic came through with a rare burst of speed in the stretch, and beat the Meddler filly two lengths for the place. The lockeys caused a peck of trouble at the barrier, with the result that Maher was fined \$15 "for impertinence," while Doggett, Sims. Songer, O'Connor and Thompson were fined a similar amount each for misbelance.

Doggett, Sims. Songer, O'Connor and Thompson were fined a similar amount each for misbehavior.

Miss Lynah was played to odds on for the third race and Maher rode har clear of the bunch after two furiongs, winning easily by three lengths from Buffoon, who beat Songster a length. Dutch Skater furnished one of his periodical surprises in the fourth race, a handicap for three-year-olds and upward. Sailor King had all the worst of the weights, but was played as if there was nothing else in it. Sensitional cut out a stiff pace with Sailor King in attendance to the turn for home, where the favorite drew to the front. In the stretch Dutch Skater and Our Johnny swooped down on him and fought out the issue between themselves. Dutch Skater won by a head, while Our Johnny beat Sailor King three lengths.

Cornorant, the 1 to 2 favorite, led all the way in the second dash for two-year-olds, but only squeezed home by a neck from Kirkwood, who moved up from fifth position in the stretch and took the place by a length from Ninety Cents. Summary:

PAPORITES PEW AT SARATOGA.

Swiftmas and Candleblack Win-Plutarch

SARATOGA, Aug. 3.—Although the fields were light in four out of the five races, the sport was excellent this afternoon. Tod Sloan arrived, but did not ride. It was a bad day for the backers of favorites, as only two were winners. The books took all the money in the opening race, which was won by Extreme, a 12 to 1 shot. Swiftmas, favorite in the second race, had only Hurly Burly and Ben Hadad to beat, but it took him all his time.

Candleblack was a 1 to 2 shot in the third and he won in a drive from Central Trust. The fourth race should have been won by the favor-fte, Remp. Willie Martin, who rode Lexington Pirate, pulled up when the flag fell, as he did not think it a start, and in doing so Lexington Pirate hit Remp and knocked him out of his stride. Remp pulled up lame and it was afterward discovered that he had broken down.

A steeplechase over the short course brought the sport to a close. Equerry was the choice at 7 to 5, with Right of Way, who had been backed from 4 to 1, next in demand at 8 to 5. It was a pretty contest from start to finish, with Plutarch, a 20 to 1 shot, the winner by a head from Right of Way. Plutarch was subsequently disqualified.

The association has decided to give a silver leving out to the winning jockey in the Gentleman's race on Thursday, Aug. 11, and it was placed on exhibition to-day. Summary:

of Aug. 16 and 16.

booters: Saturday, Aug. 20, finals between winners of Aug. 16 and 16.

On account of the presence of so many of the beat players at the front the entries are lighter than usual, but a fortnight of the usual good sport is expocted. The matches will begin on the new field at the Country Club, but should it out up too badly the play will be transferred to the old field nearer the city.

NARRAGANETT PIER, R. I., Aug. 3.—The Point Judith Country Club polo tournament was continued to day on the grounds at Wildfield Farm. The weather was pleasant and there was a large attendance. The play to-day was for the Narragansett cups, and the rival teams were the Westchesters of New York and the Myopias of Hamilton, Maes. The Westchesters were handicapped at nineteen goals and the Myopias at an even twenty. The Myopias individually and in team work played superior polo and won the match by a seere of 10% to 8. The score was tied in the first period, when the play was slow, but in the fourth period it was a fight for honors on the field, and every one played polo to the finish. The finals for the Narragansett cups will be played on Saturday by the Myopias and Dedhams.

Morrisania Police Have an Outing.

The first platoon of the Morrisania police tation held an outing yesterday at Berretto's Hamilton, O'Toole and Carson were present. The Hamilton, O'Toole and Carson were present. The special feature of the day was athletic games. The first platoon beat the second platoon in a game of ball, nine innings, by the score of b to 8. The winners of the other events were as follows: 100-yard dash, Policeman O'Connell; fat man's race, Policeman Gerrity, who weights 258 pounds; catching a duck in water, Policeman Bull; two-mile rowing race, Policemen Ferguson and Musehl. The outing was a success in every way.

preparations for holding some bleycle races in connection with the Labor Day games. A onemile novice and two-mile special have been listed, and this 'time a sanction will be obtained. The Brooklyn A. C. came under the ban of Chairman Mott because of some bloycle races which were held on Decoration Day without a sanction. It is said that the failure to obtain a sanction on that occasion was wholly an oversight. The matter was left entirely to one man who answered the first call for volunteers and left in haste, without having arranged for an L. A. W. sanction, although his clubmates thought it had been been granted.

The New York State Board of Officers has pledged its support to the Buffalo contingent in the effort to be made next week at Indianapolis and thereafter to obtain the award of the national meet for 18 ft). Since the League was organized in 1880 Boston has had three national meets and Buffalo one, which was in 1885. Recalling that occasion, Secretary-Treasurer Bull says that the Bisons accorded to the wheelmen one of the finest welcomes ever given by any city. It is generally conbe preferred to a large one for holding the annual meet. In a small city the visitors and all hands get into closer touch and receive better opportunities for fraternizing. They are made more of and gain bigger chances for recruiting the League membership, which is one of the chief purposes of such meets. W. H. Baker, President of the Associated Cycling Clubs of Buffalo, was in New York again yesterday. He received a telegram here saying that the National Circuit meet held in the Bison City on Tuesday night had netted a profit of \$1,000. The meet was held for the purpose of raising funds with which to boom Buffalo for the '09 meet, and this handsome total, Mr. Baker said, meant that delegates from the Merchants' Exchange, the Associated Cycling Clubs and several of the city officials would be sent to Indianapolis to work for the

Cyclists who have been in the habit of tarrying at Coney Island until after lamp-lighting time, on the strength of being able to ride home on a Smith street trolley car with their wheels swung over the rear brake, should take notice that this line will no longer carry bleyeles. A general order has been issued forbidding the conductors to take on bicycles under any circumstances, though the reason for such a move is not stated. In hanging a bicycle over the brake it is the wheel that suffers and not the brake handle. The chafing of the tubing against the iron handle wears off the enamel, but does not in the least feaze the solid iron bar. When bloveles are not hung on the brake a solid row of passengers can stand on the guard rail outside the dashboard and at five cents a head it pays the company better to carry men this way than to carry a couple of bicycles. The cars of the Brooklyn Heights system that run to Coney Island never would carry wheels The Nassau system continues to recognize cyclists. To and from Coney Island and the ridge wheelmen can find accommodation for their cycles on the Fifth avenue line, while to and from the Broadway Ferry in Brooklyn wheels are carried on the Marcy avenue trolley cars, which run to the island.

There appears to be some hitch in conne ion with the nomination of officers to serve the State division next year Last week the mem pers of the Nominating Committee said they would be ready to announce their ticket on Monday, but every day since then the commit-Menday, but every day since then the committee has postponed the announcement. Some
say that W. W. Armstrong, the third member
of the committee, has not been heard from,
but there is a suspicion that there is trouble of
another kind, probably relating to the second
place on the ticket. The idea that a surprise
may be sprung is gaining ground, but those
who should be best informed adhere to the belief that M. M. Belding will be named for Chief
Consul. As Belding is a New York man, the
second place on the ticket, according to custom,
should go to some man from up the State, and
it is thought that perhaps the desire on the
part of some to name another New Yorker for
second place is the cause of the uncertainty
and delay.

The Court of Armsela has Accident

The Court of Appeals has decided that wheel-men have a right to use the unpaved sidewalks running alongside of Prospect Park in Brook-iye, and now that all question of the legitimacy of so doing has passed, Commissioner Brower of so doing has passed, Commissioner Brower is proceeding with the work of making these walks eyele paths in fact. Yesterday the task of putting a surface of crushed stone on the dirt of the Flatbush avenue side was begun, and it is expected to be completed in a couple of days. The Fort Hamilton avenue side has been surfaced for some time, and when the job now under way is completed there will remain only the Ocean avenue side to be done. Work on this stretch will be started soon after the Flatbush avenue side is completed.

One of the landmarks in cycling history in this country. Julius Wilcox, while commenting yesterday upon the reconstruction of the old Concourse along the beach at Concy Island, delivered himself as follows: "I wonder if when it is completed and the carriages begin to go upon it in great numbers, wheelmen will have to get off and walk, as they did sixteen or eighteen years ago. Of course, I do not suppose that they will. The bicycle has acquired its legal rights as a vehicle since then, but speaking of the thing brought to mind the old days, when the only bicycle was the high wheel. Then we had a most paradoxical condition of affairs existing regarding this same Concourse. The wheelmen could ride down the Boulevard alongside of the wagons of all kinds, but when they reached the Concourse they had to dismount lest they should frighten the horses. It was a most peculiar thing, but nevertheless a fact, that a beast would go along the road all right and let bleycles go in front of his nose, but as soon as he got on this stretch along the shore would begin to raise Cain at the sight of a rider. No one ever fathomed it. Probably no one tried. It was easier to make us get off and walk. The safety is not such a scarcerow or rather searchorse, as the old ordinary, and hardly any animal is ever worried by the sight of one, but it will be interesting to note, when the Concourse has been restored, whether horses will still feel any different about seeing wheelmen along there from what they do when they see them on the road."

The Good Roads Association of Brooklyn is prosecuting actively, through its Road Committee, the work of having bad places on the asphalt streets repaired. Slips, which show in diagram the intersection of two streets with a third one, and are printed in blank so that the fullest details concerning bad spots can be stated, have been got up in quantity and distributed. Any rider can obtain the slips, and after properly filling them in return them to the association through the Secretary, Edward Schwalhach, Jr., 471 Flatbush avenue. After the Road Committee has investigated, a formal complaint is jodged with the Highway Commissioners. If the matter is not attended to within two weeks a second complaint is made. Much good work has been done in this way, but the lack of funds prevents the city officials from doing anywhere near all the things which are claimed to be reasonably roquested. Secretary Echwalbach said yesterday: "The fact seems to be that the appropriation for highway improvement was just about big enough to pay the salaries and running expenses of the department, After all the salaries are paid there is very little money left with which to do any work."

money left with which to do any work."

A rider with a sad face, who held in one hand a repair kit and in the other a small roll of tire tape, walked into a Boulevard store the other day. He had pushed his wheel for more than a mile to reach the place, because the articles in his repair kit were of no use. The cement in the tube had evaporated, and the tire tape had dried out so that it was as worthless as a strip of musiln. In consequence he could not repair the puncture he had asquired. He said to the dealer: "How can I keep tire tape fresh?" The laconic response of the tradesman was: "You can't. The best way is to keep buying fresh lots. That is what I have to do. To THE BUN reporter the bicycle seller said later: There really seems to be no way to keep a small package of tire tape for any length of time and have it fit for use. The rubber solution on it, which makes it take hold and stick, evaporates and the cloth gets as diry as a hone. For that reason I buy my tire tape in small quantities, and replenish the stock froquently. The best that can be done is to wrap the tape in tinfoli and keep it away from the light and air as much as possible."

It is likely that in a bulletin of Chairman Mott's soon to be forthcoming there will be a tale of slaughter of alleged amateurs who are the most prominent in the metropolitan district. The Racing Board is now taking a note on the standing of several men whose names have not been officially announced, but who in racing circles, because of the queries that have been asked are pretty well understood to be Bedell, Babcock, Powell, Dawson, Kramer, Scholleld, Ertz and perhaps a few others. Hallett and Hausman were under suspicion, but it is believed that they have cleared themselves.

Buffalo, Aug. 3.—Eddie Raid won the one-mile national championship at the electric light meeting here last night, leaving Cooper and "Major" Taylor hopelessly in the rear. The race was single paced. Howard Freeman took the pace, with Baid on his wheel. He made a splendid ride, leaving all except Baid in the rear. Floyd McFarland made a fast spurt toward the finish, beating Cooper and Taylor. In the stretch Baid pushed to the front in one of his old-time finishes and won easily, with Freeman second, McFarland third, Cooper fourth, and Taylor fifth. Time, 2 minutes 9 4-5 seconds. The two-mile professional handicap was won by Charles Werick from 250 yards, with J. Fisher, 125 yards, second: Barney Old-field, 100 yards, third; Glen Wiley, 100 yards, fourth. Time, 4 minutes 14 3-5 seconds. Baid, Cooper, and Taylor started from scratch, but loafed and kept to the rear.

The experiment of time limits in championship races has been tried by the National
Cyclists Union and has been voted a success.
In Engined racing has been rulined by the loafing tactics employed by riders, particularly in
the annual championship events. This year
the union imposed limits, and leading racing
legislators declare that the move will redeem
racing. Wheeling of London comments upon
the practice of time limits as follows:

Now that the short-distance championships have

racing. Wheeling of London comments upon the practice of time limits as follows:

Now that the short-distance champienships have been held, and the time limit enforced in them, we are in a position to judge more accurately of the real value of that innovation as a corrective for loafing in scratch races. We were told at the start that the time limit was nonsense, had been a failure in atherica, and would be a follure everywhere. The success of the time-limit stipulation at Norwich was held to be wholly unreliable, for the simple reason that the championships which were there held had never been acutely marked with the loafing mania. We were told to wait until amateurs and professionals were asked to ride a mile race in a restricted time to see what the result would be. Well, we have the results in frent of us now, and we think they amply vindicate the union's move. There was only one heat in Saturday's racing which fell outside the time limit, and that was in a quarter-mile race, which to our mind is the only one in the series in which a time limit really is not required so far as the public is concerned. Racing men of experience know that any attempt to loaf in a race of this description is fatal to the rider's chance. Still, the stipulation as laid down was not conformed to, and the winning rider was in consequence disqualited. The lesson was useful in its way, as not one of the succeeding heats called for any enforcements of the rule. Throughout the racing at Norwich and Leeds there was an entire absence of those difficulties and obstacles to success which opponents of the rule. Throughout there can be no manner of a positive and obstacles to success which opponents of the successing heats called for any enforcements of the rule. Throughout there can be no manner of a positive and obstacles to success which opponents of the success where lap prizes are dispensed with. Those popule who conceived that a time limit meant an opporessive coercion on racing men to race at a speed which was prejudical to judgment a

It develops that the time limits that were placed on the championships were, however, of a decidedly generous nature, such as would never satisfy an American racing public. For instance, in the one-mile professional championship, the record stood at 2 minutes and 30 second, and a time limit of 3 minutes and 10 seconds was placed on this race, whigh would be reckoned poor time for a novice race in this country. The final heat was won in 2:51 3-5. The conditions were favorable for record time, so that the reform instituted by the N. C. U. does not seem calculated to produce any wonderful races. Time limits in contests in this country under favorable circumstances are placed at low figures, and as a result competitors are forced to ride gamely and the spectators see good racing.

NOTES.

Arrangements have been made for Tom Linton and Jimmy Michael to meet in a twenty-inile match race at Montreal early in September.

The new cycling association formed in England to improve the status of the amateur class held its first championship meet recently. On a tandem G. Thompson and H. B. Fitzherbert of Oxford University established a new amateur record for the mile. Their time was 1 minute 59 1-5 esconds.

President W. Krietenstein of the Century Road Club of America has appointed Charles M. Fairchild of Chicago Secretary, and E. J. Sturznickle of Eric Chairman of the Membership Committee, to fill vacancies caused by resignations.

The wheelmen in England are making a determined attempt to force the railroads to carry bicycles free as passengers baggange.

The membership of the Cyclists' Touring Club of England exceeds 48,000.

Cordang, the Dutch rider who holds the twenty-four-hour record, is colouraing in England.

State Centurion Reginald Merriman of the New Jerney division of the Century Road Club of America, has appointed J. R. Benjamin, Jr., and D. Currie local centurions for Newark.

The Cyclist of London says: "The latest South African record breaker is J. Rose. This rider recently succeeded in beating all world's amateur records from ten miles to the hour. He covered ten miles in 20 minutes 2 3-5 seconds, which is 16 4-5 seconds better than R. Falmer's previous record, and a Wood Green on Sect. 6, 1849. In the boar miles in 20 minutes 2 8-5 seconds, which is 16 4-5 seconds better than R. Palmer's previous record, made at Wood Green on Sept 6, 1896. In the bour he covered 29 miles 1,878 yards, beating A. G. Wright's previous amateur hour record, made at the Crystal Palace on Oct. 17, 1806, by 019 yards. According to Engineer Lewis the necessary appropriation has been made for asphalting the aquare at the William entrance to Prospect Park, and nothing is wanting to transform the widerness of cobblesiones into a fine plana except the word to go ahead. Bome of the amateurs from New York who have declared themselves for competition in the national shampionahip events at Indianapolis are Kramer, Schodeld, Eriz, and Caccavajo.

The Vigitant Cycle Club will hold a run to New Bridge, N. J., on Sunday, Aug. 7, leaving the clubhouse, 68 East 10th street, at 9 o'clock in the morning and West Forty-second street ferry at 9:46 o'clock. Unattached riders are welcome.

The Associated Cycling Clubs of New York will hold their annual coasting contest on Aug. 20 at the Bailey avenue hill, starting from a point near Sedgwick avenue. The coast from start to finish is almost a mile.

Gray's Great Shot Putting. A report that George R. Gray of the New York A. C. Club had broken the world's record for putting the 16-pound shot at the Caledoni an games at Ottawa, Canada, on last Monday, caused quite a flutter in athletic circles yesterday. The surprise occasioned by the performhas not approached the form in public that he displayed when he made the present American record of 47 feet at the Word's Fair championships at Chicago. At the time that distance ranked as a world's record, but the Irish weightthrower, Dennis Horgan, has since supplanted it with a put of 48 feet 5 inch. made last October. This record Gray is alleged to have benten

with a put of 48 feet 5 inches. Pending further particulars the record is under a shadow, as the usual conditions at Caledonian games silow a run of 7 feet 6 inches, the shot then being put from a straight line behind a caber. Under A. A. U. rules the shot has to be put from a seven-toot circle, giving six inches less run and increasing the liability to foul by a side step out of the ring. It is also easy to foul by overstepping the small block, four feet long and seven inches high, which the A. A. U. requires, while it is almost impossible to do so with the enormous caber that the Highlanders use.

Opinions differ as to whether Gray has become a professional by competing at the Caledonian games. These contests are usually open to professionals only, and under A. A. U. rules an amateur cannot compete at the same meeting with professionals without disqualifloation. Gray's performance is a wonderful one, even if the record is not accepted, the more so because only last fail the great shotputter was attacked by a malignant fever which kept him at death's door for months. He is also said to have extablished a new world's record of 52 feet 10 inches for putting the 14-pound shot, at the same meeting. with a put of 48 feet 5 inches. Pending further

Judges Spoil an Alleged Case of Jobbery at

Syrnouse. STRACUSE, Aug. 3.—What was alleged to be a clean case of jobbery was discovered at the races of the Kirk Park Association here to-day, when an effort was made, so it was claimed, to throw the 2:28 trot to Irene. D. L. C. was played a favorite from the start. and with his recent performance at Detroit fresh in mind he had many supporters. After winning the first heat his driver laid up the second and also the third. The judges took driver Guess out and substituted Earing. Irene had won the second and third heats, and it seemed certain that the job would end successfully, but Earing drove to win. Atkins was behind Irene, and in the fifth heat there was a collision between D. L. C. and Irene, both suikles becoming locked. As a pair they drove desperately to escape the distance fag. At the last quarter D. L. C. broke away and barely got in. Irene was distanced, not on account of her place, but for a violation of the trotting rules in cutting in ahead of the pole horse. The driver of D. L. C. was not fined, though it was apparent he did not try to win the second and third heats. The 2:80 pace was postponed until to-morrow on account of ab sppraching storm. The Shah and Harry Cozzens esch wen a heat. Summaries:

Poughkerstr, Aug. 8.—A good card was presented on the second day of the breeders' meet. The 2:19 trot brought out a field of fifteen. It was finely contested. In the third heat, while the horses were scoring, Vickwood, driven by Eurke, turned too short and the sulky was overturned, throwing the driver out. Vielswood, started on a wild run. The sulky collided with a fence and the mare freed herself. She was caught unmjured. F. H. Bain's Alleante was sent a mile to beat her record of 2:20%. She finished in 2:17%. Barney Demarcest bought of Simon Walsh the bay gelding Mirable. This is Mirable's first year. He started at Goshen on July 4 and got a mark of 2:26.
